

I would also like to thank my family and friends for their support in all of my projects. I am extremely fortunate to have Matt Goldstein as my editor, and Kristy Alaura as editorial assistant. Their guidance and encouragement make it a pleasure to write chapters and meet deadlines. I am also fortunate to have Demetrius Hall as my marketing manager. His hard work is truly inspiring, and he does a great job of getting this book out to the academic community. The production team, led by Sandra Rodriguez, worked tirelessly to make this book a reality. Thanks to you all!

Acknowledgments for the Global Edition

Pearson would like to thank and acknowledge the following for their contributions to the Global Edition.

Contributor

Gregory Baatard, *Edith Cowan University*
Kenneth Eustace, *Charles Sturt University*

Reviewers

Lindsay Ward, *James Cook University*
Ajay Mittal, *University Institute of Engineering and Technology*
Khyat Sharma

About the Author

Tony Gaddis is the principal author of the *Starting Out with* series of textbooks. Tony has nearly two decades of experience teaching computer science courses at Haywood Community College. He is a highly acclaimed instructor who was previously selected as the North Carolina Community College “Teacher of the Year” and has received the Teaching Excellence award from the National Institute for Staff and Organizational Development. The *Starting Out with* series includes introductory books covering C++, Java™, Microsoft® Visual Basic®, Microsoft® C#®, Python®, Programming Logic and Design, Alice, and App Inventor, all published by Pearson.

Pearson MyLab[®] Programming

Through the power of practice and immediate personalized feedback, Pearson MyLab[®] Programming helps improve your students' performance.

PROGRAMMING PRACTICE

With Pearson MyLab[®] Programming, your students will gain first-hand programming experience in an interactive online environment.

IMMEDIATE, PERSONALIZED FEEDBACK

Pearson MyLab[®] Programming automatically detects errors in the logic and syntax of their code submission and offers targeted hints that enables students to figure out what went wrong and why.

GRADUATED COMPLEXITY

Pearson MyLab[®] Programming breaks down programming concepts into short, understandable sequences of exercises. Within each sequence the level and sophistication of the exercises increase gradually but steadily.

DYNAMIC ROSTER

Students' submissions are stored in a roster that indicates whether the submission is correct, how many attempts were made, and the actual code submissions from each attempt.

PEARSON eTEXT

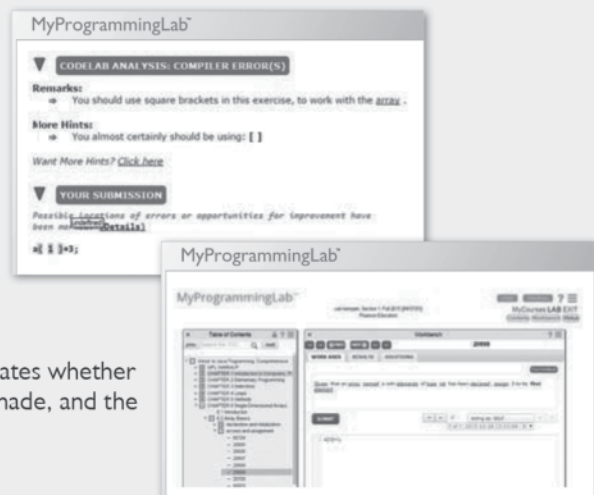

The Pearson eText gives students access to their textbook anytime, anywhere.

STEP-BY-STEP VIDEONOTE TUTORIALS

These step-by-step video tutorials enhance the programming concepts presented in select Pearson textbooks.
